

# Piano Keys:

**White keys** = Letters A,B,C,D,E,F,G

**Black keys** = # → sharp

b ← flat

**Octave:** One full set of letters. How many white notes are there in an octave? What about black notes? How many total keys in an octave? How many total keys does your piano or keyboard have?

Try counting backwards from G-A.

**Middle C:** The “C” key in the middle of the keyboard.

Usually C4 on a piano and C3 on a keyboard.
